[01] Demo Unit 1 (DEMO Energy)| Cold functional test completed

Key words: NI COM, Cold functional test, Demonstration

Source:<DEMO>- 演示｜1号机组冷态功能试验完成

(FCD+57.2 months) DEMO Unit 1 completed its **cold functional test** on **18 October 2026**, enabling the next planned commissioning activities.

On **18 October 2026**, DEMO Unit 1 completed its **cold functional test**. The demonstration article records this event separately from the publication date of **20 October 2026**.

The test is presented here as an illustrative commissioning milestone. Subsequent activities remain subject to the project schedule; completion of this test does not represent commercial operation.

All unit names, organisations, events and dates in this example are fictional. This document demonstrates the product format and must not be used as a real engineering record.
